JADE Professional gives you

JADE Professional is a suite of sophisticated legal research tools to support your legal practice.

Save time. **Get better results.**
Get the right answer.

Building on the free access JADE platform, the launch of JADE Professional gives you access to **extra features**.

Just \$40 per month.
Happiness guaranteed.

If you like JADE, you will love the power features available **only in JADE Professional**.

Analysis. Upload submissions or advice. Receive a confidential report with case and legislative references extracted, possible citation errors noted, links to primary material and other relevant material identified.

BriefCase. Simple to use and easy to transport. Access your research and documents using a cloud-based personal storage facility. Download to your iPad, Android, or other device for offline use.

Visualisation. Innovative graphical analysis tools allow you to see links and connections between cases and discover additional relevant material. Reveal hidden relationships and historical connections. Select cases for further analysis and reporting.

Legislation. Legislation in JADE gives you the current text and section-by-section identification of cases citing the relevant provision. Brilliant.

Practice Collections. Dynamic collections of key cases and legislation in selected topic areas. Use ours, or create your own and let JADE update them for you.

HOW MUCH DOES JADE PROFESSIONAL COST?

\$40/month

* This is the price for the JADE Professional subscription. (The JADE service itself remains free.)

* **Jade Professional Launch Special** - \$240 for a 6 month subscription valid to 30 June 2013.

* Jade Professional is also available month-to-month. No contract term. You can stop at any time.

We guarantee your happiness

If you are not entirely satisfied, apart from your rights under the Australian Consumer Law, we will refund your current monthly subscription.

As a professional subscriber, you will always have access to the latest features and will have an opportunity to shape our development plans.

Try JADE Professional for yourself

The easiest way to see the power of JADE Professional is to experience it yourself. We've made it really easy to get started. We have people to answer your questions and give training.

Because of our happiness guarantee, you have nothing to lose. Try it today.

How do I get started with JADE Professional?

Visit <http://JADE.BARNET.COM.AU>

JADE is evolving

JADE is a free professional legal research platform designed to make it easier to find, use, share, and present accurate legal information.

JADE contains the full text of 190,000 Australian decisions and legislation. It has an amazing citator containing references to more than 1.5 million decisions and legislation from around the world, linked to particular page references.

With the launch of the new **JADE Professional** product in November 2012, we now offer premium features to JADE users.

Why subscribe?

If JADE will always be free, why consider the professional version?

It's worth it. The professional features complement JADE and allow you to get the most out of JADE with real benefits to your legal research results, including:

- superior analysis and visualisation tools to make sure that you find relevant material;
- streamlined and offline access to your annotations and case notes for extra convenience; and
- dynamic case law annotations for legislation to save you time and ensure you consider the latest or most important decisions.

JADE Professional costs just \$40 per month. Even if you only use JADE Professional once a month to check important submissions or advice the time you will save far exceeds this cost.

Our commitment to you

We created JADE Professional to ensure that JADE is sustainable for the long term for all and to continue our commitment to innovation.

JADE remains a free service which gives you access to the same underlying primary legal materials as found in JADE Professional.

We have pledged that this will always be the case.

Access to JADE will always be free. You will *always* be able to use JADE for free. *It's your choice.*

We will continue to develop and fully support JADE but think that you will choose to subscribe to JADE Professional.

Access to the primary legal materials you find in JADE is made possible only with the ongoing support and encouragement of numerous Australian Courts, Tribunals and Governments.

See more with our videos. Our brief videos show you JADE, including the new professional features. View them today at the JADE editorial blog: <http://jadeful.wordpress.com>.

Try JADE today and share your research success stories with us.

BarNet

BarNet was established in 2000 as a not-for-profit entity. Its shareholders are barristers' chambers in Sydney. Its directors are practising barristers.

BarNet has always provided a large amount of pro bono assistance to the wider community. JADE is one such project, and the first in BarNet's OpenLaw project. If you have additional projects in mind, please contact us. We are always open to new ideas.

Jade Professional. Experience Matters.
